### Message from Director

**KAIMS International Institute, Multan**

**(Patron IN Chief)**

It is an occasion of satisfaction and pride for KAIMS International Institute, Multan that the **KAIMS International 1<sup>st</sup> Regional Conference On “Recent Advances in Research 2023”** is returning for its 1<sup>st</sup> Edition this year.

KAIMS International Institute, Multan being a relatively new Institute in terms of its structure and operations, is focused on establishing institutions and traditions that are sustainable and responsive to the needs of the society.

We have taken numerous steps to introduce and strengthen research culture at the university. National/International events and Conferences are part of the same efforts to provide a platform to researchers to share and disseminate their findings and gain inspiration from scholars doing valuable work in other parts of the world.

The 1<sup>st</sup> edition of the **KAIMS International 1<sup>st</sup> Regional Conference On “Recent Advances in Research 2023”** signals the strengthening of the University’s position in the field of research on different issues we are facing worldwide. Sustained research on social/health issues relating to requirements have the potential to bring about the largely ignored issues of the global populations into the limelight and KAIMS is proud to be playing a sustainable and consistent role in supporting the research in these important eras of science. I extend a warm welcome to all the participants to the conference and hope for meaningful and quality interaction between researchers with converging interests.

**Mahar Khizar Hiraj**
